

PORTFOLIO

ABOUT ME

As a FRONT END DEVELOPER it's key that SARAVANAN has a portfolio that includes highly appealing visual samples of their work—and that's exactly what they deliver. Each of their samples showcase website or landing page work, including project descriptions and keywords that explain the web design languages and skills used as well as website builders and other tools that bring the project to life

PROJECT 01.

Using figam to design the web page for movie. Download or anime download
